MODULAR EXHAUST WORK TABLES - DEFAULT MODIFICATION

FOR CLEAR AIR IN THE WORKPLACES

*Saves your
breath and money*

Quality of delivery
certificated

ISO 9001

This overview presentation is append. of prospects
"MODULAR EXHAUST WORK TABLES"

NOTICE:

In case of demand modification of a table against default modification final price will be solved in offer.

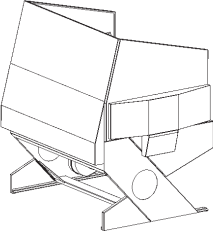

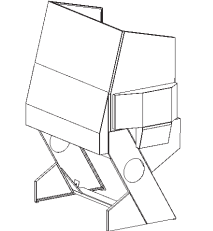

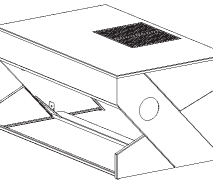

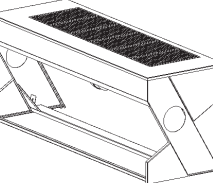

Working surface of tables (without grate) is fabricated from sheet-metal with thickness 2mm.

In case of demand modification of surface of the tables for technology (flatness, demands for higher mechanical ruggedness) final price will be solved in offer.

It is possible to use the tables for another technologies that are presented in column "Applications" - but our recommendation is consult it with producer.

WORK TABLES - EKO ST

Table	Type	recommended exhauster *	Appli- cations
	dimensions of table: w x d x h		
	dimensions of grate		
	EKO ST 5.7.B -L5-C5-P5-R2-PR5-6-V4 table: 1250 x 1000 x 700 grate: 775 x 715	SOS SV 356.1.B SOS SV 357.1.B SOS SV 556.1.B SOS SV 557.1.B	grinding
	EKO ST 3.6.U -L5-C5-P5-R1-2-PR1-2-V1 table: 1000 x 670 x 800 grate: 520 x 440	SOS SV 356.1.U SOS SV 357.1.U	multi- purpose
	EKO ST 5.8.S -L0-C0-P0-R1-2-PR1-2-V1 table: 1600 x 1000 x 800 grate: 520 x 440	SOS SV 566.1.S SOS SV 567.1.S	welding
	EKO ST 3.9.S -L0-C0-P0-R1-6-PR1-2-V1 table: 2000 x 670 x 800 grate: 1560 x 440	SOS SV 566.1.S SOS SV 567.1.S	welding

* It is necessary to consult application of recommended exhausters with producer.

Frontal screen 5.Position (letter C as orientation utility)

- 0 - without screen
- 1 - full screen
- 2 - full screen with with ribbing for repulsing of sparks
- 3 - it includes protective glass (for welding)
- 4 - it includes protective glass (for welding) and ribbing for repulsing of sparks
- 5 - exhausting with air flow control and with ribbing for repulsing of sparks
- 6 - exhausting with protective glass, with air flow control and with ribbing for repulsing of sparks
- 7 - mutiplate screens (from plastic hanging vertically)
- 8 -
- 9 -

Right screen 6.Position (letter P as orientation utility)

- 0 - without screen
- 1 - full screen
- 2 - full screen with with ribbing for repulsing of sparks
- 3 - it includes protective glass (for welding)
- 4 - it includes protective glass (for welding) and ribbing for repulsing of sparks
- 5 - exhausting with air flow control and with ribbing for repulsing of grinding sparks
- 6 - full screen short (depth 525 mm)
- 7 - mutiplate screens (from plastic hanging vertically)
- 8 -
- 9 -

Grate 7.Position (letter R as orientation utility)

- 0 - without grate
- 1-L - cast-iron (area 260x440 and its multiples); L=quantity of cast-iron grates (when it is more than 1)
- 2-P - sheet metal (area by request); P=quantity of sheet metal grates (when it is more than 1)
- 3 - mutiplate (flats lengthwise or crosswise; area by request)
- 4 - rubber plate MASTER (area by request)
- 5 -
- 6 -
- 7 -

Exhaust-pipe - for conection of exhauster 8.Position (letters PR as orientation utility)

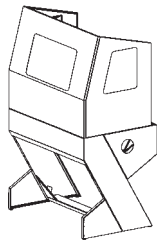

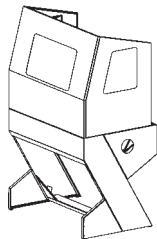

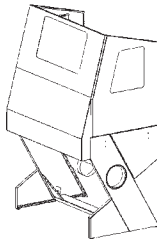

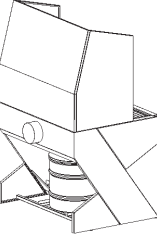

- 0 - without exhaust-pipe
- 1 - exhaust-pipe for conection of internal diameter 160 mm on the right side
- 2 - exhaust-pipe for conection of internal diameter 160 mm on the left side
- 3 - exhaust-pipe for conection of internal diameter 160 mm on the back side
- 4 - exhaust-pipe for conection of internal diameter 200 mm on the right side
- 5 - exhaust-pipe for conection of internal diameter 200 mm on the left side
- 6 - exhaust-pipe for conection of internal diameter 200 mm on the back side
- 7 - exhaust-pipe for conection of internal diameter 40 mm - as for original tables EKO
- 8 - exhaust-pipe for conection of internal diameter 100 mm
- 9 - exhaust-pipe for conection of internal diameter 125 mm

Height of desktop 9.Position (letter V as orientatin utility)

- 1 - height 800mm = default height of desktop of the table
- 2 - height 1000mm
- 3 - height 900mm
- 4 - height 700mm
- 5 - height 850mm
- 6 -
- 7 -
- 8 -
- 9 - height electricly adjustable 800-1050mm
