

IBS-High-pressure Cleaner WAS 30.100

IBS

IBS-High-pressure Cleaner WAS 30.100

Description

Liquid, alkaline degreasing water-based agent — suitable for use in all conventional high-pressure cleaner in industry and trade.
Also for pretreating.

Range of application

Versatile useable for the effective parts and surface cleaning in all branches

- ▶ industry
- ▶ trade
- ▶ building trade
- ▶ highway construction
- ▶ commercial vehicle and tarpauling-cleaning — with shine effect
- ▶ agriculture
- ▶ engineering
- ▶ logistics
- ▶ and more

Removes the following soilings

To removal heavy contamination, e.g.

- ▶ fat
- ▶ oil
- ▶ crustification and sooty particle
- ▶ roughly contamination

Excellent cleaning results on various surfaces and material.

Purification process

High-pressure cleaning

Application method

Concentration
5 - 20%

pH-value
13,5

alkaline

alkaline

clean with
shine effect

Also for pretreating!

Application-technical benefits

- ▶ liquid water-based concentrate — efficient and cost-saving apportioning
- ▶ effective high cleaning power due to matched active ingredients
- ▶ matched for conventional high pressure cleaning equipment
- ▶ gentle to the material — also suitable for sensitive surfaces and parts (lacquered surface, metal surface, brass, copper, aluminium, chrome, nickel, plastic)
- ▶ free of phosphate and silicate
- ▶ demulsifying — suitable for oilseparator
- ▶ no labeling required according to occupational safety

Please test on an inconspicuous location before using.
