

Endmills for

ALUMINIUM

RAZOR MILL

1 Flute, 2 Flute 45° Helix, 3 Flute 38° Helix Endmills

- High Performance Endmills
- Optimizes chip evacuation & eliminates chip nesting
- Enables slotting up to 1 x D axial depth
- Excellent in ramping & plunging operations

ALU-X

3 Flute Variable Helix Endmills with Mirror Polished Flutes

- High Speed and Performance Machining (HSC / HPC)
- Unique Geometry reduces cutting pressures and vibrations at high Feed rates
- Highly mirror polished flute faces & special edge prep
- Produces superior wall & floor finishes
- Designed for robust CNC Machines
- Excellent in Ramping and Plunging Operations
