

Magbase 3D

Compatible with the Brunson connecting adapter

Compact design and low dead weight

High holding force 140 N/cm²

Very easy activation

When to choose magnetic base Magbase 3D:

A magnetic base is an excellent method of mounting the measuring arm onto the steel surface of the work table or directly onto the machine bed. Due to its low weight and easy switching, it is a really mobile tool for quick repositioning in case of measuring on different parts of the table. The measuring instrument with this base can be placed directly on the measured part.

APPLICATION

Accessories

TECHNOLOGY

Permanent

DIAMETER

150 mm

HOLDING FORCE

up to 140 N/cm²

POLES

Radial

Important parameters:

Application:	Accessories
Technology:	Permanent
Holding force:	140 N/cm ²
Diameter:	150 mm
Poles:	Radial

Use:

- + accessories for portable measuring arms designed for highly precise measurement using touch probes
- + magnetic holder for laser scanner

Model	D (mm)	H (mm)	Weight (kg)	Mounting ring
